

The Favour

Beltzer
August 8th 2013

There are nine secrets in this mission:

1. This painting is moved...

...by this torch in a nearby hallway.

2. Move the crates in this closet.

3. A small switch under the table moves the bookcase.

4. The red arrows reveal a secret door.

5. Frob a book to move the bookcase on the wall.

6. A switch under the desk moves the dresser.

7. A switch on top of the baseboard moves the dresser.

8. A switch behind the pedestal moves the statue.

9. Frob the lamp to move the large painting. Just north of where a grand piano sits.

Objectives:

- Steal the wand, the broom, the cauldron, and the crystal ball. (Normal)
- Find the four objects and then, somehow, destroy them. (Hard, Expert)
- Place Taffy on the bed and arrange it as described in the letter.
- Loot Goal: 7,000 (Normal), 9,000 (Hard), 10,000 (Expert)
- Find and take the book, *The Keeper Secrets*.
- Don't hurt Aeron in any way. Don't kill or KO Taffy. Don't even touch or alert him.
- Take the Keeper lady to the starting point.
- Return to where you started.

WARNING

Do NOT destroy Aeron's four objects until your other goals are complete!

How do I get into the mansion?

To get into the mansion, place a rope where the 'X' is. On the opposite side, things get tricky. It is possible to run and leap onto the lamppost (hold down the spacebar for mantling). Then dive into the fountain and hide in a dark area of the fountain until the thieves settle down.

Once the thieves settle down, get out of the fountain and wait in the shadows to the NW. KO the patrolling thief and climb back into the fountain. Ease your way around inside the fountain to the SE side. The thief guarding the door to the west will probably hear you and investigate. Wait for him to return to his post and then jump out of the fountain on the SE side.

Jump out of the fountain and hurry across the shadows, sticking close to the wall. The thief standing on the left side of the screen- shot will not react if you're fast enough.

I found a bag in the kitchen. What do I do with it?

Use it on the chest of gold coins in Aeron's treasure room so you can fill it up.

What is the combination to the lock in Arzur's bedroom?

3306

Do I have any lockpicks in this mission?

They are located in different places according to difficulty:

Normal: In player inventory.

Hard: Outside, under sleeping thief on mansion's east side, near fancy carriage.

Expert: Moneybox on dresser in same room as combo lock.

There is also a 'Special Lockpick' located on the 2nd floor (look on your map for 'Thief Apartment'). The thieves' area is accessed via the kitchen elevator.

How do I get into the attic?

Once you get into the office (it has the green safe), there's a pull cord near a door that opens a ceiling panel.

What do I do with the ladder I found in the attic?

Go to the attic's north wall and scan the floor carefully until you see a small rectangular portion of the floor highlight. Place the ladder on it.

Where is the device I need to kill Taffy?

Look in Taffy's bathroom. (See map labeled *Aeron's Mansion—3rd Floor.*)

Where do I get the blood to pour on the bed?

Aeron's lab. You need to get the key from the small apartment adjacent to the chapel first. It's the one where you find the person dressed in yellow.

Location of the Four Objects

Wand	Aerona’s treasure room.	Aerona’s study, behind skull painting.	
Broom	Behind Aerona’s bed.	After you open door in the Halls of Bones.

Crystal Ball	Aerona’s office.		

Pickables Requiring the Special Lockpick

Type	Location
Yellow Lockbox	4 th floor, adjacent Anubis dog statue. Lockpick sequence: Square-Triangle-Square-Special
Yellow Lockbox	4 th floor, Treasure Room inside Aeron's living quarters: Square-Triangle-Special
Hallway Door	1 st floor, west end of east-west hallway located in center of mansion.
Hallway Door	1 st floor, NE section of Aeron's mansion, in short hall between living and dining rooms.
Office Door x 3	1 st floor, where green safe is located. Can also be opened with Office Key.
Hallway Door	1 st floor, just south of office. Can also be opened with Office Key.
Hallway Door	1 st floor, south end of 8-sided room. Can also be opened with Orange Key.
Barred Metal Door	1 st floor, weapons room where guards are always training.

Where is the Keeper Secrets book?

The Keeper Secrets book is at the top of this ladder in Aeron's library.

I got on the roof and climbed down a chimney but a grate is blocking the way.

This is Aeron's bedroom and the grate can only be opened from inside.

Who is the Keeper lady?

You'll find her in the main chapel. Take her to the SW corner, outside, where you began the mission, and drop her there to complete the objective.

I'm in Aeron's study and there's a skull on a pedestal that frobs. Also, a book on her desk makes mention of it.

Return to the room just outside that door. You should be in a library/sitting room where a ceiling fan spins. Investigate the bookshelves. You're looking for something on a top shelf. "Use" that item on the skull.

You'll find this in Aerona's study. Use her wand on it.

How do I get into Aerona's library?

Find a Tarot card (in Aerona's bedroom) and use it on the frobbable space on the floor on a door in the 3rd floor dining room. The door is in the NE corner of the dining room. A note on Taffy's desk makes mention of it. (See map.)

I can't past anyone while I'm taking Taffy's body out!

That's the purpose for the **GENERATOR KEY**. Use it to disable the lights in order to make movement a bit easier.

How do I get Taffy's body into Aerona's bedroom?

It's best to have your route planned out before attempting this, but just in case you didn't, you can follow the one I used below. **This route assumes you've cleared the way by KO-ing the appropriate guards and have opened the grate in the chimney.**

1. Go behind the bartender in the ballroom and sneak upon Taffy. After using the poison on him, pick him up, mantle over the bar and take him through the exit in the SE corner. Don't let Aerona or any of the thieves see you.
2. Go all the way down the hall and turn right, into the main entry. Go through the large double doors on your left. (Obviously, you need to KO the thieves guarding this door on the other side. If not, you'll have to figure out a different route.)
3. Go outside, and go left of the fountain. Go through the door you see ahead.
4. Make an immediate left once you're inside, and go up to the second floor.
5. At the top of the stairs go west and through the red door.
6. Take the small set of stairs up and right until you're outside, on the roof's alcove.

7. Mantle up onto the roof to the right. Go up to the apex and turn left. You should see a ladder. Climb it.
8. At the top of the ladder, angle left, toward the chimney.
9. Throw Taffy down the chimney and then climb down after him. SAVE YOUR GAME.
10. Pick up Taffy, go the side of the bed, MANTLE UP ONTO THE BED, and drop him there. If he goes through the bed, you did it wrong. He should land face-up on the bed itself.
11. Climb off of the bed, go to the opposite side, and drop the dagger and blood bag on the bed. The objective will tick off as complete.

How do I destroy the four objects?

As stated earlier, this should be your last objective. Call up the crystal ball in your inventory to be teleported to the Halls of Bones. Find the lava pit and toss everything into it. Save first before doing this.

Where do I find the Keeper medal?

This optional objective will appear when you read the book on the desk in the chapel office (where the yellow person is).

Return to the room that you first entered when you came into the chapel office. Look for a small switch beneath a desk. (See secret #6)
